

VISCOTEX®

Visco Memory Foam

Cool Touch Visco Memory Foam provides contouring support for deep pressure relief. Visco-Elastic Memory Foam is an open-celled, body heat & body weight sensitive material that helps to alleviate the pressure points. Originally developed for NASA, this foam provides unparalleled support & comfort. Cool Touch Memory Foam breathes as it absorbs pressure and gently cradles your body.

Anti-fungal

Mattress ticking that is naturally anti-fungal helps to prevent health problems. It's good news for people with allergies. One of Bamboo's main benefits is its inherent anti bacterial properties. It is well known that bamboo flourishes in nature without the help of pesticides or chemicals.

More Comfort, Better Sleep

It has high level of hygroscopicity and excellent permeability. Thanks to its unique properties, bamboo keeps us cool in the summer and snug in the winter.

Ecological Product

Mattress ticking is 100% biological, and its production process is free from substances that could damage the environment.

Fresh Fragrance

Mattress ticking that improves sleep comfort with anti-odor properties that remain effective for the whole lifespan of the mattress.

A side effect of well being

Interesting too is that bamboo yarn generates minus ions. These can have an extremely positive effect on our blood circulation. We all know that an optimum circulation greatly improves our quality of life and feeling of well being, relieves fatigue and stimulates the metabolism.

Eco-Comfort®

The Eco-Comfort® Initiative ensures that our production procedures meet stringent environmental protection standards.

Our Springs - Patented Ameri-Spring®, Ameri-Guard® and PowerStack® coils are not treated with any oils or chemicals.

Our Foam - Our mattresses are manufactured using foam produced by Natural Foam Technology™ (NFT), which utilizes naturally occurring CO₂, a substance exhaled by animals and used by plants. This foam is bio-based, fully recyclable and made without the use of CFC's. Currently, there's not a more natural way to produce foam.

Our Ticking - We use Bamboo®, CoolMax® and Aloe-Vera treated mattress ticking which is 100% biological, and its production process is free from substances that could damage the environment.

Lady Americana's commitment is to leave the smallest environmental footprint as possible. All of our waste is recycled.

OTHER FEATURES

Temperature & weight sensitive material.

No motion transfer, eliminates partner body movement.

Pressure relieving body conforming support & increases circulation by reducing pressure points.

No body impressions.

Allergen resistant.

Removable & washable cover.

*All models use the [Zero-Flex Box](#). Total support for the mattress comes from the box that is guaranteed for support during the entire life of the mattress.
